PaACEP Scientific Assembly 2009: Advances, Controversies, and Technology, April 13-16, Pittsburgh, PA

Just one week left to register!
Do it today at www.paacep.org!

You won't want to miss all the exciting discussion topics- more than 20 sessions focused on important clinical, legislative, and legal matters that affect emergency physicians every day at PaACEP's Scientific Assembly April 13-16 at the Sheraton Station Square Hotel in Pittsburgh, PA. Registration is filling, but there is still space available. Register NOW!

25 ACEP AMA PRA Category 1™ credits available!

"There is no better way to earn CME and at the same time interact with chapter leadership and network with colleagues," says Michael Turturro, MD, FACEP, 2009 Scientific Assembly chair.

PROGRAM HIGHLIGHTS This Week's Featured Lectures

CT in Trauma Debate- Does Everyone Need a Pan Scan? Enjoy a healthy debate about the pros of early detection vs. the cons of long term risks of radiation exposure. This session will focus on identifying occult injuries that may be detected on prompt use of computed tomography in blunt trauma patients and relate the risks of liberal use of computed tomography as related to radiation exposure. *Wednesday, April 15, 4:00 pm*

Stroke Imaging and Management When treating a stroke patient, timing is everything. In this lecture, discuss the advantages of CT angiography, MR imaging and transcranial Doppler. Deciding on a rationale for ordering the most appropriate test based on timing and symptomatology will also be discussed as they relate to treatment of an acute stroke. *Tuesday, April 14, 9:15 am*

Effective D2B Strategies for the Treatment of STEMI As the rate of heart disease in American continues to grow, more patients are seeking emergency treatment. In this lecture, discuss system improvements to facilitate management of the STEMI patient in the ED and describe an effective process improvement plan that can be implemented across a variety of EDs. *Thursday, April 16, 9:20 am*
